

## **Sprint 3 Plan**

Product Name: SlugLife

Team Name: Athlatex

Release Date: December 3, 2015

Revision Number: 1

Revision Date: November 5, 2015

Our high level goals are to have only verified administrators posting events and verified students seeing these events. We hope to incorporate many aesthetic features like hiding passwords, adding a date wheel, text wrapping, border constraints, and attractive colors. We also hope to incorporate notification and RSVP functionalities to make the application more interactive for all users.

### **Team roles:**

Christina Duran: Product Owner, Developer

Jake Zidow: Scrum Master, Developer

Sean McGrath: Scrum Master, Developer

Tim Mertogul: Developer

Daniel Urrutia: Developer

Justin Wong: Developer

**User story 1:** As an admin, I only want UCSC affiliated users so that only students arrive at my event.

Task 1: Email temporary password to input Cruz email address (Ideal hours: 7)

Task 2: Check that email ends in "@ucsc.edu". (Ideal hours: 2)

Task 3: Take user to final sign up screen. (Ideal hours: 4)

Total for user story 1: 13 ideal hours

**User story 2:** As a user, I want my password to be hidden when I sign-up and login so no one can see it over my shoulder.

Task 1: Change characters of password to show up as stars or black dots in text field

(Ideal hours: 3)

Total for user story 2: 3 ideal hours

**User story 3:** As a student, I only want to go to events posted by verified event administrators so I know I am attending a legitimate campus event.

Task 1: Add a boolean field to see if person is an administrator (Ideal hours: 1)

Task 2: Automatically make all users a normal user without writing privileges

(Ideal hours: 1)

Total for user story 3: 2 ideal hours

**User story 4:** As a user, I want a click wheel so I can specify an exact date and time.

Task 1: Change date time text in add event (Ideal hours: 2)

Task 2: Change date time text in edit event (Ideal hours: 2)

Total for user story 4: 4 ideal hours

**User story 5:** As a user, I want to RSVP to events so I can receive notifications about events that interest me.

Task 1: Add RSVP button (Ideal hours: 1)

Task 2: Insert boolean into database (Ideal hours: 10)

Total for user story 5: 11 ideal hours

**User story 6:** As a student, I want to see the events I have RSVP'd for in the 'My Events' page so I can keep track of the event I'm interested in.

Task 1: Change 'My Events' page for students so that it only displays events RSVP'd too

(Ideal hours: 6)

Total for user story 6: 6 ideal hours

**User story 7:** As an event admin, I want a count of students who RSVP'd so I can gauge interest in my event.

Task 1: Add RSVP counter to each event in 'My events' page of admin accounts

(Ideal hours: 2)

Total for user story 7: 2 ideal hours

**User story 8:** As a user, I want the application to run natively on all iPhones on the market so the application looks good on all iPhones.

Task 1: Limit number of characters (Ideal hours: 2)

Task 2: Add constraints (Ideal hours: 3)

Task 3: Text wrapping (Ideal hours: 3)

Task 4: General neatness (Ideal hours: 4)

Total for user story 8: 12 ideal hours

**User story 9:** As a user, I want to receive push notifications so I can be reminded about an event.

Task 1: Add notification system so that students and admins are sent notifications that remind them about respective events (Ideal hours: 18)

Total for user story 9: 18 Ideal hours

**User story 10:** As a user I want to have access to a complete user manual so that I understand now to use the application.

Task 1: Update the user manual so that it accommodates all functionality added by the release (Ideal hours: 1)

Total for user story 10: 1 ideal hour

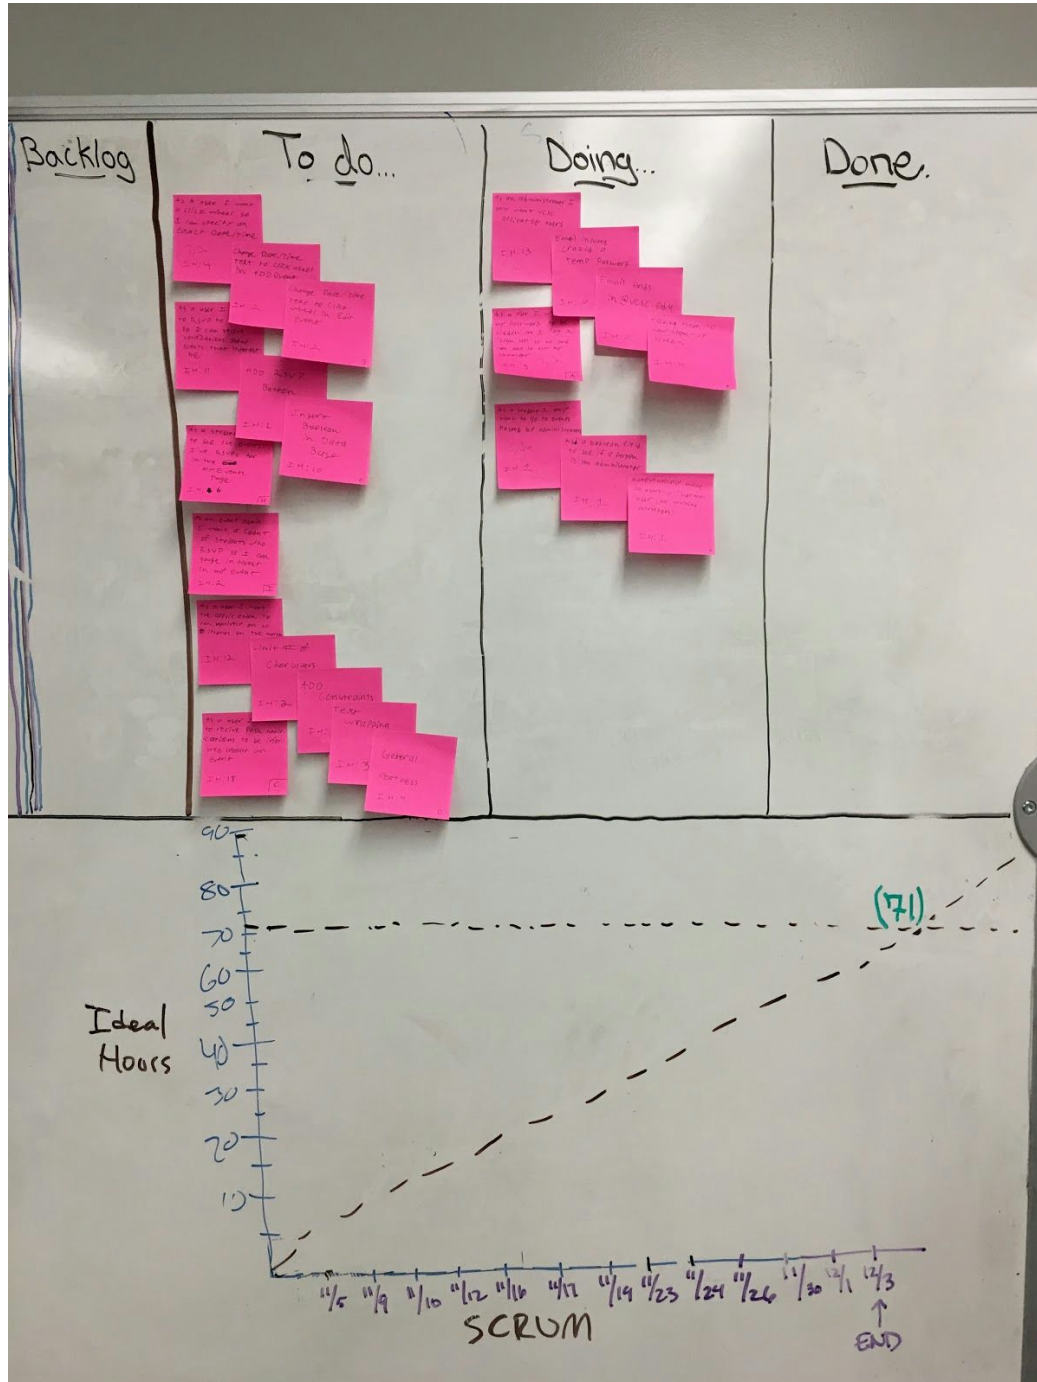

**User story 11:** As a developpe I want to have completed regression tests to insure the app is working properly

Task 1: Design regression tests (Ideal hours: 3)

Task 2: Run designed regression tests (Ideal hours: 2)

Total for user story 11: 5 ideal hours

## SlugLife Sprint 3 Initial Scrum and Burnup Chart:

The ideal hours for Sprint 3 is estimated to be about 71 hours. Our projected work time is roughly 17.75 hours per week, meaning each team member should be putting in about 2.96 hours per week.

## **Initial task assignment:**

### **Tim Mertogul:**

**User story 2:** As a user, I want my password to be hidden when I sign-up and login so no one.

Task 1: Change characters of password to show up as stars or black dots in text field  
(Ideal hours: 3)

### **Sean McGrath:**

**User story 1:** As an admin, I only want UCSC affiliated users so that only students arrive at my event.

Task 1: Email temporary password to input Cruz email address (Ideal hours: 7)

### **Daniel Urrutia:**

**User story 1:** As an admin, I only want UCSC affiliated users so that only students arrive at my event.

Task 1: Email temporary password to input Cruz email address (Ideal hours: 7)

### **Christina Duran:**

**User story 3:** As a student, I only want to go to events posted by verified event administrators so I know I am attending a legitimate campus event.

Task 1: Add a boolean field to see if person is an administrator (Ideal hours: 1)

**Justin Wong:**

**User story 3:** As a student, I only want to go to events posted by verified event administrators so I know I am attending a legitimate campus event.

Task 1: Add a boolean field to see if person is an administrator (Ideal hours: 1)

**Jake Zidow:**

**User story 2:** As a user, I want my password to be hidden when I sign-up and login so no one

Task 1: Change characters of password to show up as stars or black dots in text field  
(Ideal hours: 3)

**Scrum times:** In room BE 340B

Monday: 10:20am-10:35am

Tuesday: 6:45pm-7pm, Vishaka visits this meeting

Thursday: 2:45pm-3pm, Linda meets us for hour
